Each of the following findings of fact shall be made in writing by resolution by the Zoning Board of Appeals prior to granting such variances.

A. Area Variances

1. The strict application of the literal terms of this Chapter would present practical difficulties in the use of the property. The term "practical difficulties" shall be deemed to exist where each of the following has been determined:

a. The applicant has proved he cannot make a reasonable use of his land due to its particular size, shape or grade.

b. The applicant has proved that economic injury will result from literal application of the standards of this Chapter and the Town has failed to show that the public health, safety and welfare will be served by upholding the application of the standards and denying the variance.

c. The applicant has proved the variance, if granted, would be the minimum necessary to render relief and the difficulty could not be obviated by some method feasible for the applicant to pursue, other than a variance.

d. The applicant has proved the variance, if granted, will not change the permitted density for the parcel.

e. The applicant has proved the variance, if granted, would not change the character of the district or be a substantial detriment to adjoining properties.

f. The applicant has proved the variance is not requested for reasons of mere inconvenience, aesthetic tastes or more profitable use.

G. The applicant has proved the variance would be consistent with the spirit of this Chapter and the Town of Fallsburg Comprehensive Zoning Plan.

h. The applicant has proved the practical difficulties are not self-created. This requirement shall be strictly enforced and practical difficulties related to properties acquired by the applicant subsequent to the effective date of this Chapter shall be deemed self-created.
